Assignment 02 - CTF Play Box Implementation

Submission Note

Due to file-size and upload limitations, the demonstration video, source code, and individual contribution evidence for Assignment 02 have been provided through the group's shared Google Drive/Google Docs submission link.

The shared location contains the relevant project materials for review, including the recorded demonstration, implementation source files, and evidence identifying each member's contribution. The complete CTF Play Box files and supporting documentation are organized there for access and assessment.

Please use the shared link submitted with this document to access the materials. If access is unavailable, please let the group know so that the permissions can be corrected.

Group: G44

Module: IE3132 - Penetration Testing

Assignment: Assignment 02 - CTF Play Box Implementation – Working Box Demonstration
